Please find below and/or attached an Office communication concerning this application or proceeding.

### DETAILED ACTION

1. The reply filed on 7/5/05 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the reply does not respond to every ground of objection and rejection in the prior Office action or present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims patentably over the applied reference. Although applicant has specifically responded to the rejections concerning Garand, applicant fails to point out any specific distinctions believed to render the claims patentable over the applied references of Stephens, Clyde, Kopman et al., and the prior art made of record. See 37 CFR 1.111. Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michelle (Shelley) Clement whose telephone number is 571.272.6884. The examiner can normally be reached on Monday thru Thursday 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 571.272.6873. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
